

Lecturer to Discuss "Demands of Love in an Atomic Age"

A public lecture on the demands of love in an atomic age will be given in Torrance next Sunday, by Martin Broones of Beverly Hills, California.

Mr. Broones is a member of The Christian Science Board of Lectureship. He will speak at 3 p.m. in the Church auditorium at 1750 Manuel Ave., Torrance, under the auspices of First Church of Christ, scientist, Torrance. Admission is free.

Mr. Broones, a native of New York City, was educated at Columbia University and later studied musical composition under John Ireland of the Royal College of Music in London. Besides composing many well-known sacred songs and musical scores for many popular light operas, he organized and was director of the first music department in the motion picture industry for Metro Goldwyn Mayer Studios in Hollywood. He subsequently became a producer of motion pictures and radio programs, acting also as manager and producer for

his wife, Charlotte Greenwood.

Active in Christian Science for many years, Mr. Broones withdrew from business in 1948 to devote his full time to the practice of Christian Science healing. He became an authorized teacher of Christian Science in 1958.
